Vipin Kumar Saket

Junior Developer

Portfolio: VipinSaket.com
github.com/vipinsaket
linkedin.com/in/vipinsaket/

Computer Science graduate with a strong foundation in Java programming, including OOPs concepts(Encapsulation, Inheritance, Polymorphism, Abstraction), Interfaces, Collections framework, Multithreading, and Exception Handling. Proficient in full stack development using HTML, CSS, JavaScript, JDBC, Servlets, Hibernate and MySQL, with experience in RESTful API integration. Confident in using tools like VS Code, IntelliJ, GitHub, and Postman. To utilize my skills in a software development role while continuously learning and growing in a dynamic environment.

SKILLS

Tools and Languages	Java, OOPs, Collections, JDBC Servlet, Hibernate, Spring, RestAPI, Git.
Tools & Software	VS Code, IntelliJ Idea, MySQL, PostgreSQL, PostMan, Eclipse, GitHub.
Soft Skills	Problem Solving, Creative Thinking, Decision Making, Team Collaboration, Time Management
Quantitative Research	Mathematical optimization, Mathematical Modeling.
Communication	English, Hindi (reading and writing)

TECHNICAL EXPERIENCE

- Open AI Chatbot** [Link](#) 05/2025-06/2025
- Developed a chatbot application using Spring Boot and OpenAI GPT API, contributing more than 80% of the back-end logic, allowing smart and adaptive user responses.
 - Built RESTful APIs for smooth data exchange between the front-end and back-end, improving response efficiency by 30%.
 - Designed a responsive and clean user interface using HTML, CSS, JavaScript, and integrated it with Spring Boot, resulting in 95% responsiveness to user interface across devices.
 - Applied OOP principles, modularly structured code and implemented proper exception handling, enhancing code reusability. reducing run-time errors by 40%.
- School Management System** [Link](#) 03/2025-04/2025
- Designed and developed a web-based School Management System using Java Servlets and JDBC, automating the management of student, teacher, and attendance data (100% reduction in manual handling).
 - Integrated a MySQL database for secure and efficient CRUD operations, ensuring data consistency and reliability with 99.9% precision.
 - Built a dynamic and responsive user interface using HTML, CSS and JavaScript, achieving cross-browser compatibility and improving user experience by 85%.
 - Followed OOP principles, implemented exception handling, and structured the code for scalability, resulting in 50% easier future module integration.
- Weather APP** [Link](#) 07/2024-08/2024
- Developed a responsive and user-friendly weather web application using HTML, CSS, and JavaScript, with real-time updates.
 - Integrated OpenWeather API to provide accurate weather forecasts for over 200,000+ global locations, with efficient data handling and UI rendering.
 - Implemented error handling, responsive design, and optimized performance, achieving 95%+ device compatibility and improving user experience by 40%.

EDUCATION

Bachelor of Technology, Lakshmi Narain College of Technology 06/2024
Computer Science and Engineering CGPA-8.22

ACTIVITIES

Salesforce Developer Virtual Internship, Remote – Trainee Developer
HackerRank – Java 5-Star Coder, recognized for advanced problem-solving skills
DSA Practice – Solved 400+ coding questions on platforms like LeetCode, HackerRank, and CodeChef
Certification: Java Full Stack Developer, JSpiders Institute – Bengaluru.
